

OCCUPATIONS FOR STATE NOMINATION
SOUTH AUSTRALIA

July 2004 - June 2005

There is a particular need for the following skills and experience in both metropolitan and regional South Australia for suitable candidates with these skills and recent relevant work experience. If your usual occupation is on this list and you are interested in living and working in South Australia, the Government of South Australia would like you to contact us.

Planning levels have been established by Immigration South Australia and are attached to all occupations. Once that level has been reached, nominations under that occupation will not proceed. These Planning levels may become critical towards the end of the planning year to June 2005.
